## Pre-conference workshop

**Quality Improvement in Palliative Care through Structured Methodology**

### ➤ Concept

Quality and improvement are two key themes in the delivery of palliative care. This should be a dynamic happening within teams, hospitals and institutions. There is a need for healthcare professionals to engage in quality improvement work to improve the quality of patient care. This workshop aims to introduce the participants to a structured methodological approach to effectively improve the quality of patient care across different healthcare domains and settings. This methodology will encourage teams to solve problems reliably and sustainably through consensus-based processes.

### ➤ Highlights

- A3 methodology framework
- Step-wise approach to problem-solving from stating the problem, studying the root causes, developing interventions and measuring outcomes
- Clinical scenario-based learning
- Interactive group work

### ➤ Target audience

Professionals engaged in health care delivery

- Clinicians
- Nurses
- Allied health professionals
- Quality Personnel
- Administrators and managers
